

Bringing Silicon Valley and executive level content to the association space

Join us Oct. 27-30, 2024 in Washington, DC for executive, tech-forward content and exclusive conversations with association leaders you can't get anywhere else. Our 200+ attendees will learn about cutting-edge tech and strategies through the industries and organizations already using them, and leave with everything they need to begin experimenting, too.

Please note that suppliers are unable to attend digitalNow unless they sponsor the event or are invited to speak. A maximum number of sponsors are accepted, based on attendees, to ensure optimum exposure.

Registration is for executive-level peers, not sales staff.
